

CCRN: How to generate recruitment map across Canada

In 5 easy steps, here's how to download a map showing site recruitment across Canada:

1. Go to the CCRN website and select your language:

2. In the header, select Reports and choose *Patients, families and the general public*.

Vision

Conducting high quality clinical research on a large scale is essential for improving the health care available to Canadians.

3. Select one of the 3 first options, depending on the design of the study. You can also select the last button if you don't know the design of the study.

What kind of study design may you learn in this section?

Clinical trials (interventional studies) are used to compare the effects of two or more health interventions in order to make the best clinical decision.
